

# Wreckage

The J. Geils Band

Hold on real tight  
It's gonna be all right  
Don't get lost from sight  
There's too long a night  
To get lost again

Stay on the track  
Remember you came back  
Don't fall behind  
Don't be that blind  
You gotta see again

Only few return  
So only few will learn  
About the wreckage along the way

To see that face again  
Who would've believed it then  
They had it all  
How far they fall  
Oh the misery

It's hard to be  
Clear in memory  
Without being free  
Of the agony  
Just look at me  
Look at me

Only few return  
Only few will learn  
About the wreckage along the way  
About the wreckage along the way  
About the wreckage along the way  
About the wreckage, I've seen, along the way
