Body Language (Do the Love Dance)

The Jackson 5

Come on and do the love dance
Yes, you can, yes, you can
Come on and do the love dance
With your eyes, with your hands

Body language, body language
Let you move it 'til your secrets deep within
The body language, body language
Let your body tell the story if you can

Come on and do the love dance
Move your mighty, mighty body, baby
Come on and do the love dance
Shake your mighty, mighty body, baby

Now girls and boys around the world join hands
Express yourself in anyway you can
We're gonna groove you, let the music take your mind now
And start your body moving right on time now

Move it, move your mighty, mighty body, baby
Express yourself, ohh, move it, express yourself
Move it, move it, move it, move it baby
Ohh, move baby

Oh shake it to the east, shake it the west
Shake it to the very one you love best
Do the love dance
Yes, you can can, yes, you can can, yes, you can can
Express yourself, express yourself

You do it with your eyes, you do it with your hands
You do it with your feet, you do the love dance
You do the love dance, you do the love dance
Ahh

Shake it, shake it, shake it, shake it, shake it
Shake it, shake it, shake it, shake it

Move it, move it, move it, move it baby
Ohh, move baby

Shake your body, mighty body
It's body language
Shake your body, mighty body
It's body language

Shake your body, mighty body
It's body language

Ohh, shake it to the east, shake it the west
Shake it to the very one you love best
Do the love dance
Body language
Let you move me 'til your secret deep within

Shake your body, mighty body

It's body language, body language
Shake your body, mighty body
It's body language

Oh shake it to the east, shake it the west
Shake it to the very one you love best
Do the love dance
Yes, you can can, yes, you can can, yes, you can can
Let you move me 'til your secret deep within

Shake your body, mighty body
It's body language
Shake your body, mighty body
It's body language

Shake your body, mighty body
It's body language
Shake your body, mighty body
It's body language
