

Let's Go Back To Day One

The Jackson 5

Let's go back, (let's go back)
Let's go back
Let's go back (let's go back)
Relive the story about day one (let's go back)
Let's go back (let's go back)
Relive the story about day one

Let's go back relive the story about day one
When you first kissed my lips that's when my life begun
I thought I knew love before but I was only having fun
As we're turning the pages of time
Your love lady girl was just fine

Let's go back (let's go back)
Relive the story about day one (let's go back)
Let's go back (let's go back)
To the first chapter where our love begun

People say look to tomorrow
But I can't even live today
Now that you said that you love me
I'd rather stay in yesterday
No temptation no duplication to keep me away

Let's go back relive the story about day one
(Let's go back)
Let's go back to the first chapter
When our love begun

We got to change the plot of chapter two
You can't live without me I can't live without you
Move on to chapter three when you are next to me
Where you're supposed to be
Let's go back to relive the story about day one

Let's go back relive the story about day one
(Let's go back)
Let's go back to relieve the story about day one
(Let's go back)

Let's go back relive the story about day one
(Let's go back)
Let's go back to relieve the story about day one
