Miss luck, she's luck Miss luck, luck luck Miss luck, she's luck Miss luck, luck luck

Miss lucky day
You stepped into my life
On this lucky day
I fell for you on sight
Girl, im so amazed
Excitement cant describe
I find I fell in love before
But never felt the feeling more

Im dreaming dreams you may come true Luck has made me a part of you You're in my mind in such a way How can I forget this lucky day

Miss lucky day
You're my four-leaf clover girl
On this lucky day
You rearranged my world
From down to up
And I know that must be luck
But still I keep my fingers crossed
And hope this feeling wont be lost

Im dreaming dreams you may come true But luck has made me a part of you Oh, you're in my mind in such a way How can I forget this lucky day

Miss luck, she's luck Miss luck, luck luck Miss luck, she's luck

Miss lucky day
You stepped into my life
(2x)
(I wanted to be as far away from me
As the lucky charm you wear on your heart)

Miss lucky day You stepped into my life (2x)
