

Makin' Life A Little Easier For You

The Jackson 5

Darling baby listen here
Let me tell you something that's very true
If there is one thing I really ever want to do
Is always making life a little easier for you

I'll give you breakfast, (yeah, yeah)
Right where you lay (yeah, yeah)
I'll do your daily chores
To get you through the day
And I'll replace your still with restaurants and movie shows
In always making life a little easier for you

So don't you worry your pretty little head
See if I can let me take us through (yeah, yeah)
And if there's one thing I really ever want to do
Is always making life a little easier for you

To see you lift a finger makes me nervous
And I don't want my baby abused
So darling I'll remain at your service
(At your service)
In always making life a little easier for you

So don't you worry your pretty little head
See if I can let me take us through (yeah, yeah)
And if there's one thing I really ever want to do
Is always making life a little easier for you
(You, you, yeah)

If it rains on your bare head
I'll take you to shore (na-na-na-na)
Now when the world treats you cold
(I'll keep you nice and warm)
And with me you never see any hard times
Every day I'm gonna treat you like
Because I love you, I love you (yes, I do, yes, I do)
I'll take care of you

So don't you worry your pretty little head, no
See if I can let me take us through (yeah, yeah)
And if there's one thing I really ever want to do
Is always making life a little easier for you

Making life a little easier for you
Making life a little easier for you.....
