

# Someone's Standing In My Love Light

The Jackson 5

(Oh) oh  
I woke up from a dream  
Loving you, loving me  
Oh how real this seemed to be baby, baby  
I see you clear in my dream each night  
But you disappear when I rub my eyes

My sweet love lonely my heart is  
I need love my life is darkness  
(Someone standing in my love light)  
(Where) where are you baby  
(Someone standing in my love light)  
(Where) where are you baby

My sweet love lonely my heart is  
I need love my life is darkness  
(Someone standing in my love light)  
(Where) where are you baby  
Someone standing in my love light  
(Where) where are you baby

I can't sleep  
I close my eyes and visualize the way you look  
The way you feel, the way you steal your way into my heart  
Dreams - I'm just holding on to dreams, but baby  
I know you're out there somewhere  
Where are you girl?  
Are you just across the street?  
Or clear across the world?

My sweet love lonely my heart is  
I need love my life is darkness  
I can't sleee-ep

Someone standing in my love light  
(Ooh) where are you baby  
Someone standing in my love light  
(Ooh where are you baby)  
I keep reaching out but I can't find  
Someone standing in my love light  
(Ooh where are you baby)  
Someone standing in my love light, baby  
Someone standing in my love light  
(Ooh where are you baby)  
Someone standing in my love light, baby  
Someone standing in my love light  
(Ooh where are you baby)  
Someone standing in my love light  
Someone standing in my love light, baby.....
