## You're My Best Friend, My Love

## The Jackson 5

When I need more than love You are the one that I run to When just words aren't enough You know exactly what to do

And every time I need someone
To turn my upside down back up
You're always there
I'm so glad you care

You're my best friend, my love, my love You're my best friend, my love My love you are my best friend

You're my warm when it's cold You are my sunshine when it rains And if the rain turns to snow We'll still be on that friendship train

Cause if our love affair should end (if our love affair should end)

I know I'll never find a friend
As great as you
Girl, I'm glad it's true

You're my best friend, my love, my love You're my best friend, my love My love you are my best friend

Ooh, you're my best friend
Girl there'll be no other
You're my friend and lover
(you're my best friend)
Don't you know I love ya
You're my friend and lover
Ooh, ooh girl there will always be someone to love ya
Someone who can love ya
(you're my best friend)
Yes you are
Yes you're my friend and lover
Girl there'll be no other
(you're my best friend)
I'll be yours forever
You and me together
