

# Destiny

The Jacksons

In this world there's so much confusion  
And I've tasted the city life and it's not for me  
Now I do dream of distant places  
Where I don't know now, but it's Destiny

If it's the rich life, I don't want it  
Happiness ain't always material things

I want Destiny  
It's the place for me  
Give me the simple life  
I'm getting away from here  
Let me be free, let me be me

I'm a man that's for all seasons  
What the city offers me ain't naturally  
I look to greet the stars  
But there's no stars to see  
Gonna search this world until I find my Destiny

If it's the rich life, I don't want it  
Happiness ain't always material things

I want Destiny  
It's the place for me  
Give me the simple life  
I'm getting away from here  
Let me be free, let me be me

I'm a man that's for all seasons  
What the city offers me ain't naturally  
I look to greet the stars  
But there's no stars to see  
Gonna search this world until I find my Destiny

I wanna be far from here  
Should I up and fly away so fancy free  
Nobody can change my mind  
I'm screaming out these words for me  
While time  
Destiny, ah destiny, it's calling me  
Destiny, a place for me  
Ah, destiny  
I want destiny  
It's the place for me...
