

# Everybody

The Jacksons

Oh, everybody  
Get down on the floor  
(Get down on the floor)  
I love the way you shake your thing  
You make me want some more  
(Make me want some more)

I've had my days of standing on shaky grounds  
I want my life so fancy-free  
I know that I can do it  
I have to let me be  
And I've had enough  
And I know what's right for me

Hey, I've done my time and I have paid the price  
All you have to do is state my name out loud  
Forget your worries  
And let's dance and shout  
All you have to do is state my name out loud

Oh, everybody  
Get down on the floor  
(Get down on the floor)  
I love the way you shake your thing  
You make me want some more  
(Make me want some more)

Listen  
This time I'm leaving all my cares behind  
I've tasted the good life and it's fine  
No more to pain and strife  
This life's waiting to be  
And I've had enough  
And I know what's right for me

Hey, I've done my time and I have paid the price  
All you have to do is state my name out loud  
Forget your worries  
And let's dance and shout  
'Cause we're here to live so free  
I've got to let me be

Oh, everybody  
Get down on the floor  
(Get down on the floor)  
I love the way you shake your thing  
You make me want some more  
(Make me want some more)

Oh, everybody, yeah  
Get down on the floor  
(Get down on the floor)  
'Cause I love the way you move  
Shake your thing  
You make me want some more, babe  
(Make me want some more)

Hey, I've done my time and I have paid the price  
All you have to do is state my name out loud  
Forget your worries  
And let's dance and shout  
'Cause we're here to live so free  
I've got to let me be

Oh, everybody  
Gon' get down on the floor  
(Get down on the floor)  
I love the way you shake your thing  
You make me want some more, babe  
(Make me want some more)

Oh, everybody  
Gon' get down on the floor  
(Get down on the floor)  
I love the way you move  
The way you groove  
You make me want some more, babe  
(Make me want some more)

Get down, get down, get down  
Get down, get down, get down  
Get down, get down, get down  
Make me want some more, babe  
(Make me want some more)

Oh, everybody  
We're gonna get down on the floor  
(Get down on the floor)  
I love the way you groove  
The way you move  
You make me want some more  
(Make me want some more)

Get down, get down, get down  
Get down, get down, get down  
Get down, get down, get down  
Make me want some more babe  
(Make me want some more))  
I love, I love, I love, I love, I love  
The way you  
(Everything about you)  
(Thing about you  
(Thing about you)  
(Thing about you)
