

# Happy Together

The Jam

Thought that I would forget you?  
Heaven knows that's not my style  
And that I would let you walk away  
Without at least goodbye

You shouldn't let those  
Feelings fool you  
You shouldn't let those  
Feelings get you down

We're happy together now  
Feeling you close to me, baby  
Happy till the end of time

We're happy together now  
Feeling you close to me, baby  
Happy till the end of time

We're happy together  
Happy together

Thought that I was a devil?  
But I'm an angel waiting for my wings  
And I was out to hurt you?  
But I've no wish to ever cause you pain

'Cause there's enough  
In this world of sorrow  
I've no wish to add  
Some more to it

We're happy together now  
Feeling you close to me, baby  
Happy till the end of time

We're happy together now  
Feeling you close to me, baby  
Happy till the end of time

We're happy together  
Happy together

I don't hear a symphony  
All I hear is the beating  
Of what I'm trying to say  
Is you're my only

We're happy together now  
Feeling you close to me, baby  
Happy till the end of time

We're happy together now  
Feeling you close to me, baby  
Happy till the end of time

We're happy together  
Happy together now
