

London Traffic

The Jam

London traffic (state of confusion)
London traffic (blocking the streets)
London traffic (going nowhere)
London traffic (polluting the air)

Drive round London in a car
Don't really want to go far
So many cars fill the streets
Wonder why we bother at all

London traffic is a problem
London traffic too many cars
One way systems look very neat
Coloured signs direct the streets

No one knows the answer
No one seems to care
Take a look at our city
Take the traffic elsewhere

Leave the city free from traffic
Give the place a chance to survive
Dirt and filth cover London
Give it a chance to breath again
