London Traffic

London traffic (state of confusion) London traffic (blocking the streets) London traffic (going nowhere) London traffic (polluting the air)

Drive round London in a car Don't really want to go far So many cars fill the streets Wonder why we bother at all

London traffic is a problem London traffic too many cars One way systems look very neat Coloured signs direct the streets

No one knows the answer No one seems to care Take a look at our city Take the traffic elsewhere

Leave the city free from traffic Give the place a chance to survive Dirt and filth cover London Give it a chance to breath again The Jam
