

Sing Along

The JaneDear Girls

Boy you thought I had it really bad for you
Thought you had it made when you made me choose
Now you're stuck at home all alone with a 9 to 5
You told me I could go but I wouldn't get far
Never in this life could I be a star
Look at me now I would say that I'm doin' just fine
Good bye

Every time you miss me baby
Every time you're thinking of me
Just turn your radio on
Sing along, sing along
I'll be right there waiting for you
Just like you always wanted me to
Now that all you got left is this song
Sing along, sing along

Yeah, you pictured me at home just a workin' that broom
Singin' in the kitchen baking cookies for you
You were wrong, now I'm gone doin' what you said I couldn't do
Thank you

Every time you miss me baby
Every time you're thinking of me
Just turn your radio on
Sing along, sing along
I'll be right there waiting for you
Just like you always wanted me to
Now that all you got left is this song
Sing along, sing along

You always begged me to write you a song
Well baby I'm sorry it took me so long

Every time you miss me baby
Every time you're thinking of me
Just turn your radio on
Sing along, sing along
I'll be right there waiting for you
Just like you always wanted me to
Now that all you got left is this song
Sing along, sing along

This one's for you, this one's for you
Come on baby sing along
Sing along, sing along
