

## Sister Cry

The Jayhawks

Sister cry, what you needed  
Bought yourself things you could not use  
Could be some man will come along and claim you  
Could be you'll wind up in another town.

Sister cry, count the stars.  
Is many in the sky that passed you by.  
Could be up ahead you'll be seeing changes.  
Somehow changes made won't belong to you.

Someone come along and carry you down  
And you called my name  
I was so hungry then  
Someone come along and carry you down  
You could not see you  
Someone come along and lay you down  
And you don't talk at all  
Its the hardest way  
Someone come along and carry you down

Sister cry, been mistreated.  
Doesn't mean someone won't let you in.  
Could be some man will come along and claim you  
Could be you'll wind up in another down

This devils knocking at your door  
But I could lead them all astray  
Just don't matter what people say

Sister cry, count the stars.  
Is many in the sky that passed you by.  
Could be up ahead you'll be seeing changes.  
Somehow changes made won't belong to you.  
Could be up ahead you'll be seeing changes.  
Somehow changes made won't belong to you.
