

## Stick In The Mud

The Jayhawks

I've been getting by  
I've got no cross to bear  
But I'm still getting there  
You've got me down on my knees  
Begging you please don't leave  
Let me be nice to you  
You're still my best friend  
Who says that this is the end  
Why do good things divide  
Why did they all choose sides  
Slow steady wins the race  
Slow steady wins the race  
You've got the sweetest eyes  
You just couldn't be mean  
See you down on Skyline Drive  
You've got me down on my knees  
Begging you please don't leave  
You've got me down on my knees  
Begging you please don't leave
