

Stick In The Mud

The Jayhawks

I've been getting by
I've got no cross to bear
But I'm still getting there
You've got me down on my knees
Begging you please don't leave
Let me be nice to you
You're still my best friend
Who says that this is the end
Why do good things divide
Why did they all choose sides
Slow steady wins the race
Slow steady wins the race
You've got the sweetest eyes
You just couldn't be mean
See you down on Skyline Drive
You've got me down on my knees
Begging you please don't leave
You've got me down on my knees
Begging you please don't leave
