## The Jayhawks

I've been getting by I've got no cross to bear But I'm still getting there You've got me down on my knees Begging you please don't leave Let me be nice to you You're still my best friend Who says that this is the end Why do good things divide Why did they all choose sides Slow steady wins the race Slow steady wins the race You've got the sweetest eyes You just couldn't be mean See you down on Skyline Drive You've got me down on my knees Begging you please don't leave You've got me down on my knees Begging you please don't leave
