

Nature's Girl

The Jelly Jam

Eternity, infinity, morality in effigy
Conformity, conspiracy, minority in effigy
She lives in her own little dream world
She fell from the family tree
And wants to see how it will be in effigy

She, she is nature's girl
She's a mystery to all around her world

A refugee of poverty and rhapsody in effigy
With sorcery and decency
Her chivalry in effigy

She'd like to be big as a mountain
Her life is as big as a sea
But bravery and mastery elude the key in eternity

She, she is nature's girl
She's the apple that was placed inside our world

She is nature's girl
She's a mystery to all around her world

She, she is nature's girl
She's the apple that was placed inside our world

She is nature's girl
She's a mystery to all within our world

She is nature's girl
She is nature's girl
She is nature's girl
