

## Shall We Descend

The Jelly Jam

did you ever get that feeling  
that you weren't all alone  
did it get your senses reeling  
did you jump when you heard the phone  
do you wonder how you got here  
do you wonder where you've been  
do you feel you crossed the finish line  
and it was rigged, you couldn't win  
do you dream of summer sorrow  
is your mind blowing in the wind  
do you ever think that you will stop it  
do you think you can start again  
shall we descend  
do you ever hold to your feelings  
do you ever stand in the light  
do you always have to think about it  
do you wonder when you're not right  
would you listen if somebody told you  
did you ever fly in the night  
do you dream of summer sorrow  
is your soul blowing in the wind  
do you ever think that you can stop it  
do you know you can start again  
shall we descend
