

## Bullet Lovers

The Jesus and Mary Chain

Black as night black as life  
Hungry for some of that easy life  
Stoney cold and a twistin' moon  
Live it fast you're gonna get there soon

Look out world 'cause we know how to fight  
Someone's gonna get shot tonight

Black eyed blonde and a blonde eyed black  
Come from hell and we won't be back  
I'm in your blood and I'm in your bones  
Better dead than to be stuck alone

Look out world cause here she comes  
Suckin' on her painted thumbs

Hey, it's ok I will never go away  
Hey, it's alright when the  
day turns into night
