Hole

The Jesus and Mary Chain

This has been my prison Got no high got no low This has been religion Took my heart killed my soul

All I want is a dream Give me something to dream Got myself in a scene Don't know where I've been

All I want is a dream Something naked and clean Somebody give me a call I'm climbing up on the wall

And I want it all And I need it all I can't get it Took my heart and soul Give them back to me
