

A Star Is Born

The John Butler Trio

A star is born
like so many before
but he shines bright
he lightens up all my life
How proud I am
he made me a real man
I curse the days
I have to go away from you child

Curse the days
Curse the days

I hold his hand
somehow he understands
And all day long
we climb and slide
and sing his songs
I know I am
I'm drifting from my plan
I curse the days
I have to go away from you boy

Curse the days
Curse the days

A star is born.
