

# Nowhere Man

The John Butler Trio

I'm in, and I'm out  
Alien from somewhere else  
Don't know what the hell  
I be yelling about  
But from here and there  
belong nowhere

Seem so many northern man  
Now things don't seem to be the same  
But they are some how  
Cause all my life I lived on the outside  
But now I'm in, but in nowhere

Nowhere Man

Strangely enough I'm more  
like lawn trees  
I love those forests  
but the lawn better suits me but  
I love to share just like the pollen loves to be free  
And flying in through the air  
nowhere better suits me

Somewhere down deep inside in me  
I guess I always wanted to  
be part of that beat?  
And now I found that in my family  
And now I'm happy just to be
