

# Used to Get High

The John Butler Trio

I used to get high for a living  
Believing everything that i saw on my tv  
I used to get high for a living  
Eating all the bullshit food that they sold me  
I used to get high for a living  
Thinking that my destiny was out of my control  
I used to get high for a living  
There's lots of different reasons and i'll tell you so

Super size, large fries, big mac, coca cola  
Go on man, pick your poison  
Speed, weed, ecstasy, LSD  
Man, it don't bother me cos we're all on something  
Caffeine, cigarettes, alcohol  
You know i'm clawing at the walls trying to get my fix  
Prozac, ADD tablets, coke, smack  
Now you know i am turning tricks cos

I used to get high for a living  
Believing everything that i saw on my tv  
I used to get high for a living  
Eating all the bullshit food that they sold me  
Yeah, that they sold me

Escape, can't wait all trying to get away  
From this place man that we're feeling  
Can't deal, can't feel what's real  
Lyrics  
All trying to conceal all this time we're stealing  
No doubt, the route you're on  
Can't find the clout that you've been needing  
'Til then my friend you must contend  
With the monster that you're feeding

I used to get high for a living  
Believing everything that i saw on my tv  
I used to get high for a living  
Eating all the bullshit food that they sold me  
I used to get high for a living  
Thinking that my destiny was out of my control  
I used to get high for a living  
There's lots of different reasons and i'll tell you so

Got links of the cheney  
Getting crazy, getting lazy with their foreign relations  
Starting wars, closing doors  
Trying to bring about one quicker, man, revelations  
Economic rational calling fouls with the workers  
Just trying to make it pay  
Cost cutting, head butting  
Big business do what they like and you do what they say  
What's wrong get along, just prolong all the thoughts  
You got going on, on the inside  
Appease, stand at ease, just try to please  
All the apathy that you're trying to hide  
How now brown cow  
Did we get from this standing place.....

And now we're kneeling  
'Til then my friend you must contend with the monster that you're feeding

I used to get high for a living  
Believing everything that i saw on my tv  
I used to get high for a living  
Eating all the bullshit food that they sold me  
I used to get high for a living  
Thinking that my destiny was out of my control  
I used to get high for a living  
There's lots of different reasons and i'll tell you so
