

## Valley

The John Butler Trio

So have you been to the valley lately?  
Have you noticed that the shepherd is gone?  
So walk gently lady  
As you walk along  
Cos I once fought for his forces  
But that cross bears nothing now  
I've seen all but your Crusades succeed  
And it's growing sour

Gonna be a long time waitin  
Things are always looking little better when you're on the back  
Side of them

And then you know all that you think you might need to know  
But even then, my little wing, you'll have to grow  
You'll have to grow

So have you been to your God lately?  
No Jesus Christ, he ain't nowhere to be seen  
He is not there matey  
He has never been

So have you been to your church lately  
No cannot find the key to your home  
There is no support for you now my friend  
They got problems of their own
