

The Leopard and the Lung

The Joy Formidable

Who? Who comes tonight
You wanna be clear that you still doubt
So stand again
Patterns the void, the more it began

Hey, hey, hey, hey, hey
It's not gonna ruin this town
As soon as a wolf does nothing
Wait, wait, wait, wait, wait
They always wanna run you down
It's better to face myself and

Your song, don't be too long
Try to call me now's the night
I'm not, so capture me
Maybe we asked for all to show

You laid the lung
Laid there
So, all I do
Is stare

Hey, hey, hey, hey, hey
It's gonna overrun this town
It follows you everywhere
It always gonna run you down
It's bad to face my something
It's bad to face my something

You were there
When it first happened
I think I trick your wolf
It really took so many
Get back to line the wall
You better touch to me
You think I can't get warm
It really took so many
Then write to let that go

You're better outstanding
You're better outstanding
You're better outstanding
You're better outstanding

Hey, hey, hey, hey, hey
It's not gonna ruin this town
As soon as a wolf does nothing
Wait, wait, wait, wait, wait
They always wanna run you down
It's better to face...
It's better to face myself and
