The Juliana Theory

The time is 2:22 And I hope your wish comes true But you say I'll know before you do And I hope you're right Why can we talk this way We always speak When you're so far away And I'm sitting right here It's 10:00 your time And it's 1 by mine And I often wonder Why you even care Do you ever wonder ever wonder why We met here The time is 2:22 And I hope my wish comes true And I think I'll know just when you do And I hope I do Maybe this is just what I need Maybe I'm wrong When you're so far away And I'm sitting right here It's 10:00 your time

And it's 1 by mine
