Steal and skin

Locals read me
Like I'm not supposed to be where I should be
But I creep
To the backbone of my being

Raise your flags but keep your distance
Steal and skin go get your reasons
Raise your flags but keep your distance

I fell right at home in my town
Happy day
And step out into the freezing morning air

Feels good to know that everyone here Feels good to know that everyone waves by habit But it makes my day by habit But it makes my day by

I thought I'd be
Right where I wanted to be
So what now
I crashed the course
Could I get back on it?

Steal to live and thats my reason Steal to live

I feel right at home in my town Happy day And step out into the scorching daylight air

Feels good to know that everyone here Feels good to know that everyone waves by habit But it makes my day by habit But it makes my day by

Now I lay down and stare Watch my walls Find the friendly faces Anyone I know

I feel out of place in my old town Just a day Another day

Feels strange to know that everyone here Feels strange to know that everyone waves by habit Just another day by habit Just another day by
