Ohio (& The 178 Meter Dash To Indiana)

The Junior Varsity

It's back this time only it's harder Take time rewind you could give a about this Look at what you've been through Look at what you've pulled me through Man somehow this one tells me this could take a lot from me

If it's human nature for us to walk in circles Then i must be the king of wrong turns wrong things to say Long after this is over you'll want to Give in give back what you think has been dealt to you And this is what you've been through Lost but not forgotten down but far from out i Could use a change of key

And i'm back this time only i'm angrier Take time for yourself
