

# Changed

The Katinas

I was lost in a maze  
My heart was broken in a thousand different ways  
So many questions but nobody had an answer for me  
Tried to masquerade my pain behind my pride  
But then you came into the way I felt inside  
You spoke the truth and set my spirit free  
Now I'm breathing again

chorus:

Now I am changed  
I've been made whole  
You've given life to me  
Filled with your love  
That healed my soul  
I'm not empty any more  
Now I am changed

I can see the light  
It's finally breaking through  
The sun is rising and I can feel the warmth again  
I've discovered my purpose and all I wanna do  
Is be a reflection of You

BRIDGE

Oh, you took the missing part  
To the puzzle of my heart  
You put me back together again  
Like a prisoner set free  
Chains falling off of me
