

Destiny

The Katinas

Have you ever had a dream about accomplishing great things?
And you can clearly see the invisible as reality
And when you start to push, to bring it to pass
Comfort zone people start to laugh and question you

They tell me just to slow down
Relax and ease my mind
Young man where are you going?
What are you trying to find?
But I can't sit and be still
I have a mission to fulfill
You ask me why?
You ask me why?
I'm on a mission

It's my destiny my purpose and design got a hold of me
There will be no stoppin' till I reach my goal
If you wanna come you better hit the road
It's my destiny my purpose and design got a hold of me
There will be no stoppin' till I reach my goal
If you wanna come you better hit the road come and run with me

Have you ever taken time pondering the depths of your mind?
And you can clearly see the invisible as reality
And when you start to push, to bring it to pass
