

# One More Time

The Katinas

Lord, I saw your face last night  
When I looked in the sky  
You were smiling

You told me it would be okay  
You would make a way  
In my dark times

Every time I hear Your voice  
Every time I feel Your touch  
It makes me know that I can face tomorrow  
One more time

When all my friends go away  
I'll be glad to say  
You're still near me  
Even when the wind blows by  
I feel warm inside  
You're so lovely

Every time I hear Your voice  
Every time I feel Your touch  
It makes me know that I can face tomorrow  
One more time

I need you, don't leave me  
Without you I can't survive

Every time I hear Your voice  
Every time I feel Your touch  
It makes me know that I can face tomorrow  
One more time

I know that I can face tomorrow  
'Cause you will walk me through my  
pain and sorrow  
I know that I can face tomorrow  
One more time  
I can face tomorrow  
You can face tomorrow  
We can face tomorrow  
One more time
