

Rock & Roll Angel

The Kentucky Headhunters

Little rock 'n roll angel's got a style that's the talk of the town
She causes traffic jams and staring in every crowd
Just one look's not enough, the boys think she's tops, she's the best
Yeah, she looks so good she'll make you forget all the rest

Little rock 'n roll angel I love the way you spread your wings
Wearing high heel shoes and a dime store diamond ring
Those ruby red lips that you use to kiss all the boys
Make us dream and wish that we could have you for a Christmas toy

Singing ooh la la, don't ever stop that rock 'n roll
Keep making those pretty girls, the kind we like to hold
Bring back the jumpin' jukebox and put 'em in the places girls go
'Cause deep down inside you know an angel's gotta rock 'n roll

Little rock 'n roll angel, I've seen that look in your eyes
You're going out to a party and you're planning to stay all night
And when the weekend's through, you'll be back in school with your friends
Then come Friday night, girl you'll start it all over again

Singing ooh la la, don't ever stop that rock 'n roll
Keep making those pretty girls, the kind we like to hold
Bring back the jumpin' jukebox and put 'em in the places girls go
'Cause deep down inside you know an angel's gotta rock 'n roll
