

Goodnight, Travel Well

The Killers

1. The unknown distance to the great beyond
stares back at my grieving frame
To cast my shadow by the holy sun
my spirit moans with a sacred pain
And it's quiet now,
the universe is standing still

R: There's nothing I can say, there's nothing we can do now
There's nothing I can say, there's nothing we can do now

2. And all that stands between the soul's release,
this temporary flesh and bone
We know that it's over now,
I feel my faded mind begin to roam
Every time you fall and every time you try,
every foolish dream and every compromise
Every word you spoke & everything you said,
everything you left me rambles in my head

R:

Up above the world so high
And everything you loved and every time you try,
everybody's watching, everybody cry
Stay, don't leave me, the stars can't wait for your sign,
don't signal now

R:

Good-night, travel well
Good-night, travel well
And there's nothing I can say, nothing I can do now
Travel well
