

On Top

The Killers

Remember Rio and get down
Like some other DJ, in some other town
Has been trying to tell me to hold tight
But I've been waiting this whole night
But I've been down across the road or two
But now I've found the velvet sun
That shines on me and you□

In the back, uh huh, I can't crack
We're on top
It's just a shimmy and a shake, uh huh
I can't fake, we're on top
We're on top

The day is breaking, we're still here
Your body's shaking, and it's clear
You really need it, so let go
And let me beat it, but you know
That I've been down across the road or two
But now I've found the velvet sun
That shines on me and you□

In the back, uh huh, I can't crack
We're on top
It's just a shimmy and a shake, uh huh
I can't fake, we're on top
We're on top
We bring the bump to the grind, uh huh
I don't mind, we're on top
It's just a shimmy and a shake, uh huh
I can't fake, we're on top
We're on top

And we don't mean to satisfy tonight
So get your eyes off my bride tonight
Cause I don't need to satisfy tonight

It's like a cigarette in the mouth
Or a handshake in the doorway
I look at you and smile because I'm fine

And we don't mean to satisfy tonight
So get your eyes off my bride tonight
Cause I don't need to satisfy tonight

It's like a cigarette in the mouth
Or a handshake in the doorway
I look at you and smile because I'm fine
