

Shot at the Night

The Killers

Once in a lifetime, the suffering of fools
To find our way home, to break in these palms
Once in a lifetime (Once in a lifetime)
Once in a lifetime

Give me a shot at the night
Give me a moment, some kinda mysterious
Give me a shot at the night
Give me a moment, some kinda mysterious

Once in a lifetime, the breaking of the roof
To find that our home, has long been out grown
Draw me a life line, 'cause honey I got nothing to lose
Once in a lifetime (Once in a lifetime)
Once in a lifetime

Give me a shot at the night
Give me a moment, some kinda mysterious
Give me a shot at the night
Give me a moment, some kinda mysterious
Give me a shot at the night

Look at my reflection in the mirror
Underneath the power of the light
Give me a shot at the night
Give me a shot at the night
Give me a shot at the night
I feel like I'm losing the fight

Give me a shot at the night
Give me a moment, some kinda mysterious
Give me a shot at the night

Give me a shot at the night
Give me a moment, some kinda mysterious
Give me a shot at the night
Give me a moment, some kinda mysterious
Give me a shot at the night
Give me a moment, some kinda mysterious
Give me a shot at the night
