

That Love

The Kills

Will you or won't you
cross that road in time?
Will you or won't you
outrun, what you know you must?

It's over now
It's over now
That love you're in
is fucked up

Will you or won't you
land softly down?
Will you or won't you
be around?

It's over now
It's over now
That love you're in
is all fucked up
That love is done

If you get a minute
you can find a whole day and think
Let somebody that ain't
Let somebody that ain't cuttin' like a snake
The thump of the red blooded heart
is trumped by the art of war
Try the truth and test it before
you lose sight of the shore

It's over now
It's over now
That love you're in
is a fucking joke
That love...
