

## Wall of Fire

The Kinks

Standing at the end of the horizon  
Looking at another setting sun  
Nature gave us all these toys to play with  
But we've abused them, each and every one  
They stretched the chord, snapped the wire  
Lit the fuse but can't retire  
We're going to the wall of fire  
Tip-toeing on the great high wire  
Let's have a real fire

The city slickers built the great illusion  
Now they're the first to crumble in the sun  
Now we're going through the wall  
Let's see the flames before we fall  
We're going through the wall of fire  
Let's have a real fire  
Tip-toeing on the great high wire  
Through the wall of fire

We drove on many rocky roads together  
Through the storms and hurricanes we rode  
Unified so no one could destroy us  
We stretched the bounds  
But always kept the code  
Liberals shout and cause concern  
Forget next week while we all burn  
Let's run right through the wall of fire  
Let's have a real fire  
Death-defying while the flames grow higher  
Through the wall of fire  
Let's go through the wall of fire  
Running through the wall of fire
