

# Only A Prayer

The Kinleys

Someday I may see you walking  
Down a crowded street  
Never even know that you and I  
Were meant to meet

I've heard every heart is one that  
They were meant to hold  
When it's gonna happen, baby  
Only heaven knows

It's a short lifetime and love's  
Too precious not to find  
It's more than luck if we're gonna meet and touch  
And love the one that's meant for us

Only a prayer can reach you  
Only angels wings can bring you  
Only a prayer can make you mine  
Only a prayer can reach you

That's how God knows I need you  
Only a prayer can make you mine

Wonder what you look like  
Wonder what you're gonna say  
When at first our eyes meet  
Will we know it right away?

Are you in the cafe  
Right across the avenue?  
And, baby, if you are  
Are you thinkin' of me too?

It's a short lifetime and love's  
Too precious not to find  
It's more than luck if we're gonna meet and touch  
And love the one that's meant for us

Only a prayer can reach you  
Only angels wings can bring you  
Only a prayer can make you mine  
Only a prayer can reach you

That's how God knows I need you  
Only a prayer can make you mine

It's a short lifetime and love's  
Too precious not to find  
It's more than luck if we're gonna meet and touch  
And love the one that's meant for us

Only a prayer can reach you  
Only angels wings can bring you  
Only a prayer can make you mine  
Only a prayer can reach you

That's how God knows I need you

Only a prayer can make you mine

Only a prayer can reach you  
Only angels wings can bring you  
Only a prayer can make you mine  
Only a prayer can reach you

That's how God knows I need you  
Only a prayer can make you mine
