

## Please

The Kinleys

There ain't no easy way to start this conversation  
So I'll just say what's on my mind  
Once our hearts both shared a common destination  
To love until the end of time

Lately we've been drifting further from each other  
Someone's gotta take the wheel  
And I won't wait until it's too late to recover  
So let me tell you how I feel

I'll do anything, if it'll bring our hearts together  
I'll stand and fight or get down on my knees  
If we can fix what's wrong and just go on in love forever  
Baby, I'll be beggin' please

I'm strong enough to handle any situation  
But honey true love has no pride  
So I can say without a moments hesitation  
Before I'll let you say goodbye

I'll do anything, if it'll bring our hearts together  
I'll stand and fight or get down on my knees  
If we can fix what's wrong and just go on in love forever  
Baby, I'll be beggin' please

Boy, you know your love's  
My one true weakness  
When it comes to you I'm helpless

I'll do anything, if it'll bring our hearts together  
I'll stand and fight or get down on my knees  
If we can fix what's wrong and just go on in love forever  
Baby, I'll be beggin' please, please
