

Body Talk

The Knack

When the mirror has blown to pieces
And the pieces have scratched the sky
They say the very first cut's the deepest and I know why
A work of wonder the way you walk
I listen to your body talk
You work your will when will it start take me baby

Oh I feel a ripple in time
Oh I feel a ripple in time
Oh it's a ripple in time
When you touch me

When there's nothing more left to reason
And your rivers have all run dry
It's just the cold rain of the season flashing by
A wish of wonder a waterfall
I listen to your body call
You walk away you take my heart take me baby

Oh I feel a ripple in time
Oh I feel a ripple in time
Oh it's a ripple in time
Now

A work of wonder the way you walk
I listen to your body talk
You walk away you take my heart take me take me baby

Oh I feel a ripple in time
Oh I feel a ripple in time
Oh I feel a ripple in time
Oh it's a ripple in time
