

## Frustrated

The Knack

Frustrated she's getting to me  
Frustrated do what you do to me  
Frustrated

She'll tell you grab it live it up  
Long as you can get it up  
She'll make you shake and break your neck  
Feeling like a total wreck  
Oh I wanna serve you  
Oh no I don't deserve you  
She's a teaser tonight  
But you know she'll turn it off  
Just as you're turning down the light

She's gonna take you by the hand  
Lead you to the promised land  
She'll make you weak and out of breath  
Feeling like you done to death  
Oh I wanna hold you  
Oh and bend and fold you  
She'll be pulling the string  
But she'll tie it in a knot  
Before she give you anything

You gotta get that get this  
If you wanna get a kiss  
She'll make you crazy in the head  
Better off if you were dead  
Oh I wanna lead you  
Oh I wanna feed you  
Call her chicken delight  
But the flesh is on the bone  
And she ain't giving you a bite
