

Girl I Never Lied to You

The Knack

Picking up the pieces
They're shattered all around me
I'm looking at a photograph
And it hurts so bad
Girl I never lied to you
But I wish I had

I hear there's people talking
I know just what they're saying
You read it in a magazine
And it's never any good
Girl I never lied to you
but I wish I could

Sitting in this lonely room
Sometimes I wonder why
To think that I could hold you now
All I had to do was lie

Picking up the pieces
To put them back together
I never meant to hurt you girl
And you never understood
Girl I never lied to you
Now I wish I could

Sitting in this lonely room
Sometimes I wonder why
To think that I could hold you now
All I had to do was lie

Picking up the pieces
To put them back together
I never meant to hurt you girl
And you never understood
Girl I never lied to you
Now I wish I could

Girl I never lied to you
Girl I never lied
Girl I never lied to you
Girl I never lied
