Hold On Tight And Don't Let Go

The Knack

Make a me feel right
You gotta rock me give me shivers tonight
You gotta hold on tight and don't let go
Treat a me real nice
You gotta kiss me when you turn out the lights
You gotta hold on tight and don't let go

Don't leave don't make me lonely Don't say goodbye If you don't love a me only Our love will die

Say that say that you love me Tell me you're mine I pray to heaven above me True love will shine
