

# It's Not Me

The Knack

If my smile is like the sun  
Shining 'til the day is done  
It's really only painted on  
It's not me it's not me

And if you catch me by surprise  
And there's wonder in my eyes  
It's really just a cheap disguise  
It's not me it's not me

It's a game they've played upon  
The ragged frame my clothes hang on  
Just a name that knows no one  
It's not me it's not me

If you spy me in a crowd  
Smiling broadly laughing loud  
That's only thunder from a cloud  
It's not me it's not me

And if you think you'll hear me cry  
When you finally say goodbye  
That's really just an alibi  
It's not me it's not me

It's a game they've played upon  
The ragged frame my clothes hang on  
Just a name that knows no one  
It's not me it's not me

Ooh ooh  
It's not me it's not me

It's a game they've played upon  
The fragile frame my clothes hang on  
Just a name that knows no one  
It's not me it's not me

That's the road we ride upon  
Love's the hope we're hanging on  
A [?] here a long time gone  
It's not me it's not me
