

# Shine

The Knack

Hey, how ya been  
It's time to shake it up again  
Whatcha gonna do, whatcha gonna say  
When you open up your eyes on a brand new day, yeah  
Na, na, na, na, na -- it's a ticket to the show  
Na, na, na, na, na -- it's a feeling in the air,  
Feel it everywhere

You know we all shine on  
The light delights the day  
Return to turn it on, or fade away

I see ya down  
You wear the bad times like a crown  
Whatcha gonna do, whatcha gonna say  
When a smile comes along that you can't wipe away, yeah  
Na, na, na, na, na -- with a little bit o' soul  
Na, na, na, na, na -- just a little bit o' care  
Gonna get you there

You know we all shine on  
The light delights the day  
Return to turn it on, or fade away

Like -- like in a dream  
Nothing is ever what it seems  
Whatcha gonna say  
In the wink of an eye time will slip, away

You know we all shine on  
The light delights the day  
Return to turn it on, or fade away

You know we all shine on  
You know we all shine on  
You know we all shine on
