

You Make Me Like Charity

The Knife

You try to feel, but you can't wake up
You try to touch, but you can't wake up
You're holding ice and you don't wake up
Increase the size and you don't wake up

I do it backwards, but I don't wake up
Try to reverse, but I don't wake up
I sit astride, but I still don't wake up

More than a second
When reading the newspaper I felt the war
I felt her exposed position
I saw myself in the picture, and I

I took a cab there to hold her
I took a plane there to feel what she felt
You make me like charity
Instead of paying enough taxes

I took a cab there to hold her
I took a plane there to feel what she felt
You make me like charity
Instead of paying enough taxes

I took a cab there to hold her
I took a plane there to feel what she felt
You make me like charity
Instead of paying enough taxes

I took a cab there to hold her
I took a plane there to feel what she felt
You make me like charity
Instead of paying enough taxes

I took a cab there to hold her
I took a plane there to feel what she felt
You make me like charity
Instead of paying enough taxes

I took a cab there to hold her
I took a plane there to feel what she felt
You make me like charity
Instead of paying enough taxes

I took a cab there to hold her
I took a plane there to feel what she felt
You make me like charity
Instead of paying enough taxes

I took a cab there to hold her
I took a plane there to feel what she felt
You make me like charity
Instead of paying enough taxes
