

Feel Love

The Knocks

I could let it go
But baby, something pulls me like magnets to you
When I get too close
It feels like I lose you if I make certain moves

I'm on my knees
I'm just trying to get through
Say you love me
And I'll come crawling back to you

I wanna feel love deep inside of me
I wanna feel it like I've never felt like this before
Can you feel love deep inside of you?
Can you feel it like you've never felt like this before?

You keep out of reach
When all I'm trying to do is keep you in my arms
But that's just you and me
We just hurt each other to see how we scar

I'm on my knees
I'm just trying to get through
Say you love me
And I'll come crawling back to you
