

The arrogance of angels, the heresy of Christ  
The stupidity of humanity, the skeletons of society  
It's time to separate the saints from the sinners  
Judgement day is coming - Evacuate then renovate

Proclaimed by a thousand prophets, believed by a million fools  
But the day will come when everything falls apart  
All it takes is a single act of animal desperation  
And what if all the things we believed in were true

Decades of decadence and aeons of evil  
Worldwide terror in the shape of a shining star  
From the center of damnation to the outskirts of Hell  
Redemption only comes with a pair of numbered wings

In our quest for miracles, we started a war of genitals  
Disguised as the bearers of justice, we took your fears and made  
you a God

Why are you afraid of something you're not even sure exists?  
I am the maze of God... I am the true face of fraud  
Embrace the pain, and I will lead you to another heaven  
For who are you to believe in another paradise than mine?

The Infant Prodigy - The Bearer of Light  
Without me you would be nothing at all  
The beginning and the end are the same, the circle never ends  
And the more things change, the more they stay the same

Decades of decadence and aeons of evil  
Worldwide terror in the shape of a shining star  
From the center of damnation to the outskirts of Hell  
Redemption only comes with a pair of numbered wings
