

I Believe It

The Kry

(Jean-Luc, Pete Nelson)

It all became clear to me
The day I believe it what is true
He was nailed to the tree
Cause I needed a Savior I needed love
Why would I be silent or ashamed
To sing about the one Who took my place
I believe in God and the Son He sent
That He came That He died And He's risen again
Every word He said Every promise is true I believe it...I believe it...
This I'll sing loud and clear
As long as I'm breathing
My whole life through
While the world spins and whirls
No other reason to live at all
You may disagree but that's O.K.
Cause I don't really care what they may say
It's like a fire burning inside that keeps burning burning burning
I believe in God and the Son he sent
That He came That He died And He's risen again
Every word He said Every promise is true I believe it.. I believe it...
I believe in God and the Son He sent
That He came That He died And He's coming again
Every word He said Every promise is true I believe it.. I believe it.. I believe it...
